ACCESSORIES

Adapter:
Allows both straight and tapered Flush-Type dressers to be used with drill presses, portable or right-angle drills. Threaded 3/8” - 24.

Stud Shank
For use with any extended series chuck or adaptor.

Guide Rings
Guide Rings are used to guide on the outside diameter of the electrode to be dressed. Guide Rings are used with C-01 Chucks, R-01 Nuts, and BE Type Blades. R-01 Rings are to be used with 5RW (.625”) and 16mm diameter electrodes. R-02 Rings are for .482” diameter electrodes. R-02A Rings are for .500” and 13mm electrodes. Extended Guide Rings are used when dressing long pointed type electrodes or when you need to make sure the top of the electrode is perpendicular to the side of the electrode. Use R-07 Extended Guide Rings with 5RW (.625”) and 16mm diameter electrodes. R-08 Extended Guide Rings for .482” diameter electrodes. Use R-08-x13 Extended Guide Rings for .500” and 13mm electrodes.

Special Blades
In addition to the partial listing of our standard blade shapes shown we regularly manufacture blades for non-standard electrode shapes, we are here to help solve your dressing problems.

CUTTERS FOR ROBOTIC SYSTEMS

Tips can be precisely dressed in seconds, either online or offline, using either our flush, extended, large extended or flush style cutters.

Electrode Dressers has applied over 50 years of experience toward the design and development of a full line of cutters for robotic spotwelding systems. As a supplier to the automotive industry, appliance manufacturers, office furniture manufacturers, the aeronautical industry, and other industries utilizing spot welding. Our attention to quality and dedication to service makes the cutters from Electrode Dressers the best in the industry.

Offset Electrodes
Until Electrode Dressers developed this unique system, offset electrodes were almost impossible to dress – resulting in a high and constant replacement cost. Now offset electrodes can be dressed quickly, easily, efficiently... offering substantial savings in offset electrode replacement costs.
